Mike and Shawn,

Please see the email we sent below on Friday evening. The table includes all of the SDMS documents that we collected that evening. I believe the first two for access were the only documents taken from your current spreadsheet/inventory. Please add the remaining documents to the current spreadsheet that you have put together for future requests. I will send you an invite to the OneDrive folder. Thanks for all your help with this.

Rebecca,

Due to the size of the documents requested, we had to upload the documents into a OneDrive folder, to which I provided you access (I can grant access as required). A separate email will be sent directly from the OneDrive folder directing you to the documents. Once you're in the folder, you will be able to download the documents and send forward as appropriate.

ECEJ identified the documents requested that are pertinent to ECEJ (marked in Yellow), and can review documents EPR provides in response to other questions. ECEJ can also review any narrative answers drafted (e.g. responses to Requests # 35, 16, or 1).

The spreadsheet below has the SDMS numbers added for identification of the ECEJ documents. All request documents marked in Yellow have been placed in the OneDrive folder. Please let us

know if you have any problems downloading the documents from the OneDrive site.

HQ-EOC sent me the
attached R8 fact sheet and
funding authority memo.
1. I received an inquiry
from HEC Committee staff
asking why it was a "time-
critical" removal action if
we've been investigating
at the site since the early
2000's. 2. Also, needs
additional information on
whether the "time-critical"
portion refers to just Red
Bonita or Gold King Mine
also.
